## **DETAILED ACTION\**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with A. Blair Hughes on Tuesday, April 12, 2005 at 4:55 pm.

The application has been amended as follows: claim 15 has been amended to read as follows:

15. A magnetic resonance imaging scanner comprising an apparatus for detecting ferromagnetic objects according to any one of the preceding claims.

### ***Allowable Subject Matter***

2. Claims 1-16 are allowed.

3. The following is an examiner's statement of reasons for allowance: there does not exist prior art that either discloses or suggests an apparatus for detecting a ferromagnetic object that comprises two sensors wherein a primary sensor is adapted to measure a magnetic field and to produce a corresponding measurement signal and a secondary sensor is adapted to detect the movement of objects in the vicinity of the

primary sensor and wherein a signal processor is configured to correlate the signals due to the two sensors in order to provide an output indicative of the presence of a ferromagnetic object in the vicinity of the primary and secondary sensors.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
